

PARTICIPANTS NEEDED FOR A KNEE HEALTH STUDY

Researchers at The University of Sydney are conducting research on the sounds that knees make and knee health outcomes.

Who do we need?

- 1) >18 years of age
- 2) People with knee osteoarthritis OR People without knee osteoarthritis
- 3) Without knee replacement or recent knee injuries
- 2) No recent cardiovascular disease
- 3) Not pregnant

What does the study involve?

This study involves a 75 minute consultation with an Accredited Exercise Physiologist (AEP) at the Susan Wakil Health Building (free parking available) and a short phone/online interview 3-months later. You will be asked to repeat the 75 minute consultation every two years for a maximum of 10 years.
