

Do you live with shoulder osteoarthritis, support someone who does, or treat it clinically?

Have your say about the future of shoulder osteoarthritis research!

We want to hear what you think is important to research about shoulder osteoarthritis (OA). Despite shoulder OA impacting many Australians and New Zealanders and causing significant pain, **we don't know much** about it. **Answer our survey** to help us change this!

To get involved, you must:

- Live with, or care for someone with shoulder osteoarthritis OR
- Provide healthcare in shoulder osteoarthritis
- Be over 18 years old
- Live in Australia or New Zealand

What does it involve?

- A **short survey**, approx. **5-10 min** of your time.
- **Writing 1-5 questions** you think are important to answer.
- Sharing a bit about yourself – your age, gender.
